THE

Hurwood Manufacturing Company,
..... PLANTSVILLE, CONN.

MAY, 1903.

The Hurwood Manufacturing Company,

Makers of Hurwood Tools

PLANTSVILLE, CONN.

Respectfully invites the critical and intelligent inspection of the lines of First-class Tools contained in this catalogue.

Beginning with the now famous **Hurwood Screw-Drivers**, which are indestructible in ordinary use, and ending with our latest addition, **Ball-Bearing Side-Cutting Pliers**. Every tool bearing the Hurwood imprint is warranted, whether in the hands of the merchant or the artisan, and will be made good, if it should prove defective. We believe that there are people enough in this country who will pay a fair price for a good tool.

The Name HURWOOD is a synonym for Best Quality.

MAY, 1903.

HURWOOD SCREW-DRIVERS.

TRADE MARK

REGISTERED.

A practically INDESTRUCTIBLE Screw-Driver.

No amount of hammering on the head can injure the Handle.

When a hammer is used the full force of the blow falls directly on the work.

A special brand of steel used, the quality of which is unsurpassed for strength and toughness

The steel extends from point of
blade through the handle, and forms
a top for rough use.

For those who require strong, serviceable Screw-Drivers, nothing can touch the HURWOOD.

Impossible to twist the handle on the steel.

Each Screw-Driver warranted for quality of steel and workmanship, and if one should give out in ordinary use, will be *replaced without cost*.

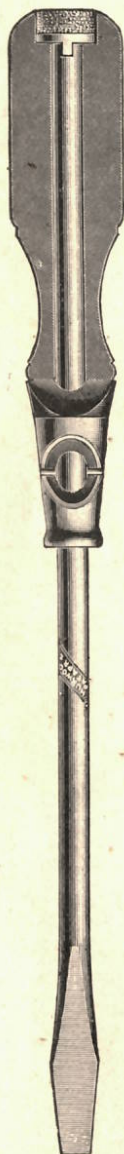

Special sizes made on order.

PRICE LIST.
